

How to survive in 1111

Tao-Sheng Chen
VP of Engineering

Hello. WE'RE SHOPBACK.

We're the largest shopping & discovery platform in APAC.

Our mission is simple: We live to win over shoppers by constantly upping our game – be it **rewards or meaningful experiences** – so they can achieve a **personal victory** every time they use ShopBack.

- **10** markets
- **38M** users
- **>1 million** shopping trips every day
- **1000+** employees

Investors:

Singtel

Transaction duration

Requests per minute

Key elements

- Estimation for the worst/best?
- Money talks but can't buy everything!
- Alignment with Business
(know the traffic behavior)

Estimation

- Planning for the target and estimation on the resources

Load testing

- Simulation in Production environment
 - Avoid resource leaking
 - Gain confidence
 - Pick right timing (4am)

Planning

- Plan ahead of the time
- D-Day plan
 - Worst case plan
 - On-duty schedule

Planning

- Technically readiness
- No silver bullet
 - Public Cloud is good...but
 - K8S is good...but

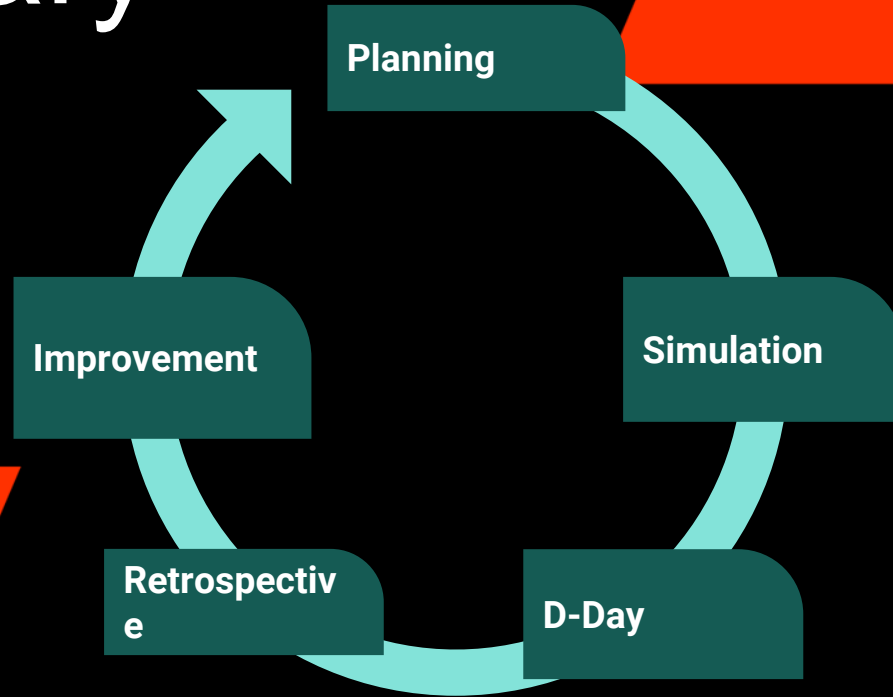

D-Day

- On-Duty
- Process
- Leadership

Retrospective

- Review the day
- Improve for the next-event

Summary

Thanks
