■ **Brief Intro :**

To build a stronger global platform for cybersecurity information sharing, CYBERSEC GLOBAL is bringing together top security experts from around the world starting in 2024. Talks will be streamed live on the CYBERSEC official website during the event, breaking down geographic barriers and spreading knowledge internationally. This way, more cybersecurity professionals can take part, no matter where they are.

For CYBERSEC 2025, we're aiming to bring even more international experts on board. **This is a great chance to connect with the global CYBERSEC community without traveling to Taiwan, and an opportunity to showcase your research to a worldwide audience.**

*Check out a preview of CYBERSEC GLOBAL on the official webpage of 2024:

■ **Video Requirement :**

1. Resolution & Format : 1920x1080 (16:9) in .mp4 format.
2. Video Length : 30 mins.
3. Submit Date : **February. 28th , 2025.**
4. The speaker's face, slides, and audio need to be recorded in a **single video file**. The event will apply a live stream template, adding key visuals to the video provided by the speaker. The final layout will organize the speaker's face, slides, and job title as shown in the example on the **next page**. No further editing will be done beyond the official layout.
5. If speakers prefer not to show their faces during the presentation, they may choose to provide a screen recording with audio only.
