Brief Info

CYBERSEC GLOBAL is expanding as a trusted stage for international cybersecurity exchange. In 2026, we will gather global experts to share diverse insights across all areas of cybersecurity — from resilience and innovation to cross-border collaboration and beyond.

Pre-recorded sessions on the CYBERSEC platform let you reach global audiences across time zones, spark conversations, and showcase your research — all without traveling.

For a preview, check out CYBERSEC GLOBAL 2025 highlights below:

Session at a Glance

- **Session Format:** Pre-recorded live streaming
- **Premiere:** May 5 – 7, 2026
- **Live-streaming Platforms:**
 1. CYBERSEC Video Platform
 2. Sync Play: Onsite Venue & CYBERSEC Official Website
- **Language:** English
- **Session Length:** 30 minutes
- **Eligibility Criteria:** Global cybersecurity researchers, professionals, and practitioners
- **Target Audience:** CYBERSEC 2026 participants and subscribers

Self-recording Tutorial -1

- **Equipment & Environment**

- Laptop with camera, microphone, and recording software (PowerPoint recording is acceptable).
- Quiet, small room – please avoid background noise such as TV, doors, or other interruptions.

- **Video Requirements**

- Resolution: 1920×1080 (16:9)
- Format: .pptx and .mp4 are both accepted
- Length: 30 minutes
- Submission Deadline: March 4, 2026

Self-recording Tutorial -2

- **Recording Guidelines**

- The speaker's face, slides, and audio should be recorded together.
- While MP4 files are accepted, PowerPoint recordings are preferred, as they integrate seamlessly with the official layout.
- A live-stream template will be applied, adding key visuals. The final layout will display the speaker's face, slides, and job title (see examples on the following pages).
- No further editing will be done beyond applying the official layout.

Self-recording Tutorial -3

- **Additional Notes**

- Please also provide the original PPT file with your submission. This allows us to refine the layout and avoid overlap between the speaker's face and slides.
- If speakers prefer not to appear on camera, a screen recording with audio only is acceptable.

Live-streaming Layout
